DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 100 and 101 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Although devoid of markings, applicants have amended claim 100 to depend from cancelled claim 45. Claims 101 is also indefinite in view of its dependency from claim 100.

Claim Rejections - 35 USC § 102

2. Claims 88-94, 96-111, 113-127 and 129-137 and 139-140 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 99/52973 for the reasons set forth in item 4 of the Office action mailed 6/28/2007.

Applicant's arguments filed 9/26/2007 have been fully considered but they are not persuasive. Applicants argue that the applied reference fails to anticipate the instant claims because the reference film includes a polyalcohol component. However, this argument is ineffective because the instant claims do not exclude any additional unrecited components, and therefore the reference films are within the claimed scope. The only films which would exclude blend components are recited in claims 95, 112, 128 and 138 (not rejected over this reference), which require the presence of a film, prior to reaction with (B), formed solely of the poly(carboxylic acid) polymer (A).

Applicants further argue that the reference films would not show the claimed solubility in acid or alkali. However, the claims are unlimited regarding the dissolution temperature or pressure conditions, and therefore would include high temperatures and pressures under which the reference films would be expected to be soluble.

Furthermore, the claims are unlimited regarding additional organic components which may be present in combination with the 1 N acid or alkali solution, and therefore the reference films would be expected to show the claimed solubility at elevated temperature and pressure in the further presence of alcohols, amines, or other organic components.

3. Claims 95, 112, 128 and 138 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
